

Geography Progression Document

National Curriculum guidance

	EYFS - Understanding the World - ELG	Nursery	Reception
Locational Knowledge	<p>The World ELG – Explore the natural world around them, making observations and drawing pictures of animals and plants. Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class. Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter.</p> <p>People, Cultures and Communities ELG- Describe their immediate environment using knowledge from observations, discussions, stories, non-fiction texts and maps. Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps.</p>	<ul style="list-style-type: none"> • Comment and ask questions about aspects of their familiar world such as the place where they live or the natural world • Know that there are different countries in the world & talk about the differences they have experienced or seen in photos 	<ul style="list-style-type: none"> • Observe, find out about and identify features in the place they live and in the natural world. • Find out about their environment and talk about those features they like/dislike. • Use appropriate words, e.g. ‘town’, ‘village’, ‘road’, ‘path’, ‘house’, ‘flat’, ‘temple’ and ‘synagogue’, to help children make distinctions in their observations. • Encourage children to express opinions on natural and built environments and give opportunities for them to hear different points of view on the quality of the environment. • Recognise some environments that are different to the one in which they live

Geography - Progression of Knowledge and Skills

	Skills/Knowledge	National Curriculum - End of Key Stage 1	Year 1	Year 2
Locational Knowledge	Skills	Name and locate the world's seven continents and five ocean	Locating four of the world's seven continents on a world map. Locating two of the world's oceans (Atlantic Ocean and Pacific Ocean) on a world map. Showing on a map which continent they live in.	Locating all the world's seven continents on a world map. Locating the world's five oceans on a world map. Showing on a map the oceans nearest the continent they live in.
	Knowledge		To know the name of the four continents (Europe, Asia, Africa and North America). To know that a continent is a group of countries. To know that they live in the continent of Europe. To know that an ocean is a large body of water. To know the name of two of the world's oceans (Atlantic Ocean and Pacific Ocean)	To be able to name the seven continents of the world. To be able to name the five oceans of the world.
	Skills	Name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas	Locating the four countries of the United Kingdom (UK) on a map of this area. Beginning to locate the capital cities of the four countries of the UK on a map of this area. Identifying characteristics (both human and physical) of the four countries of the UK. Showing on a map which country they live in and locating its capital city.	Locating the surrounding seas of the UK on a map of this area . Confidently locating the capital cities of the four countries of the UK on a map of this area. Identifying characteristics (both human and physical) of the four capital cities of the UK. Showing on a map the city, town or village where they live in relation to their capital city.
	Knowledge		To know that the UK is short for 'United Kingdom'. To know that the United Kingdom is made up of four countries and to be able to name them. To know that a capital city is the city	To know that a sea is a body of water that is smaller than an ocean. To know that there are four bodies of water surrounding the UK and to be able to name them. To name some characteristics of the

Geography - Progression of Knowledge and Skills

			<p>where a country's government is located. To know the name of the country they live in. To know the capital cities of the UK.</p>	<p>four capital cities of the UK. To know the four capital cities of the UK</p>
--	--	--	---	--

	Skills/Knowledge	National Curriculum - End of Key Stage 2	LKS2	UKS2
Locational Knowledge	Skills	<p>Locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities</p>	<p>Locating some countries in Europe and North and South America using maps. Locating some major cities of the countries studied. Locating some key physical features in countries studied on a map including significant environmental regions. Locating some key human features in countries studied. Locating the world's most significant mountain ranges on a world map and identifying any patterns. Locating where the world's volcanoes are on a map and identifying the 'Ring of Fire'. Locating some of the world's most significant rivers and identifying any patterns.</p>	<p>Locating more countries in Europe and North and South America using maps. Locating major cities of the countries studied. Locating key physical features in countries studied on a map . Locating key human features in countries studied. Identifying significant environmental regions on a map. Using maps to show the distribution of the world's climate zones, biomes and vegetation belts.</p>
	Knowledge		<p>To know where North and South America are on a world map. To know the names of some countries and major cities in Europe and North and South America. To know the names of some of the world's most significant mountain</p>	<p>To know the name of many countries and major cities in Europe and North and South America. To know the location of key physical features in countries studied. To name and describe some of the world's vegetation belts (ice cape,</p>

Geography - Progression of Knowledge and Skills

			<p>ranges.</p> <p>To know the names of some of the world's most significant rivers.</p> <p>To know that mountains, volcanoes and earthquakes largely occur at plate boundaries.</p> <p>To know that climate zones are areas of the world with similar climates.*</p> <p>To know the world's different climate zones (equatorial, tropical, hot desert, temperate and polar).*</p> <p>To know that biomes are areas of world with similar climates, vegetation and animals.*</p> <p>To know the world's biomes *</p> <p>To know vegetation belts are areas of the world which are home to similar plant species.*</p>	<p>tundra, coniferous forest, deciduous forest, evergreen forest, mixed forest, temperate grassland, tropical grassland, mediterranean, desert scrub, desert, highland).*</p>
		<p>Name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time</p>	<p>Locating some counties in the UK (local to your school).</p> <p>Locating some cities in the UK (local to your school).</p> <p>Beginning to locate the twelve geographical regions of the UK.</p> <p>Identifying key physical and human characteristics of geographical regions in the UK.</p> <p>Identifying how topographical features studied have changed over time using examples.</p> <p>Describing how a locality has changed over time, giving examples of both physical and human features</p>	<p>Locating many counties in the UK.</p> <p>Locating many cities in the UK.</p> <p>Confidently locating the twelve geographical regions of the UK.</p> <p>Identifying key physical and human characteristics of the geographical regions in the UK.</p> <p>Understanding how land-use has changed over time using examples.</p> <p>Explaining why a locality has changed over time, giving examples of both physical and human features.</p>
	Knowledge		<p>To know the name of some counties in the UK (local to your school).</p>	<p>To know the name of many counties in the UK.</p>

Geography - Progression of Knowledge and Skills

			<p>To know the name of some cities in the UK (local to your school). To know the name of the county that they live in and their closest city. To begin to name the twelve geographical regions of the UK. To know the main types of land use.* To know some types of settlement.*</p>	<p>To know the name of many cities in the UK. To confidently name the twelve geographical regions of the UK. To know that London and the South East regions have the largest population in the UK.</p>
		<p>Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)</p>	<p>Finding the position of the Equator and describing how this impacts our environmental regions. Finding lines of latitude and longitude on a globe and explaining why these are important. Identifying the position of the Tropics of Cancer and Capricorn and their significance. Identifying the position of the Northern and Southern hemispheres and explaining how they shape our seasons. Identifying the position and significance of both the Arctic and Antarctic Circle.</p>	<p>Identifying the location of the Prime/Greenwich Meridian and time zones (including day and night) and explaining its significance. Using longitude and latitude when referencing location in an atlas or on a globe</p>
	Knowledge		<p>To know that countries near the Equator have less seasonal change than those near the poles. To know that the Equator is a line of latitude indicating the hottest places on Earth and splitting our globe into the Northern and Southern Hemispheres. To know lines of longitude are invisible lines on the globe that determine how far east or west a location is from the Prime Meridian.</p>	<p>To know the Prime/Greenwich Meridian is a line of longitude which goes through 0° and determines the start of the world's time zones.</p>

Geography - Progression of Knowledge and Skills

			<p>To know lines of latitude are invisible lines on the globe that determine how far north or south a location is from the Equator.</p> <p>To know the Tropics of Cancer and Capricorn are lines of latitude and mark the equatorial region; the countries with the hottest climates.</p> <p>To know the Northern and Southern hemisphere are 'halves' of the Earth, above and below our Equator and have alternate seasons to each other.</p> <p>To know the boundaries of the polar regions are marked by the invisible lines the Arctic and Antarctic circle.</p> <p>To know the patterns of daylight in the Arctic and Antarctic circle and the Equatorial regions</p>	
--	--	--	--	--

	EYFS - Understanding the World - ELG	Nursery	Reception
Place Knowledge	<p>The World</p> <p>ELG – Explore the natural world around them, making observations and drawing pictures of animals and plants. Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class. Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter.</p> <p>People, Cultures and Communities</p> <p>ELG- Describe their immediate environment using knowledge from observations, discussions, stories, non-fiction texts and maps.</p> <p>Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps</p>	<ul style="list-style-type: none"> • Talk about some of the things they have observed in different places • Comments & asks questions about aspects of their familiar world such as the place where they live or the natural world • Make imaginative & complex 'small worlds' with blocks & construction kits, such as a city with different buildings & a park 	<ul style="list-style-type: none"> • Observe and identify features in the place they live and the natural world. • Talk about features. • Help children to find out about the environment by talking to people, examining photographs and simple maps and visiting local places. • Encourage the use of words that help children to express opinions, e.g. 'busy', 'quiet' and 'pollution' • Recognise some similarities & differences between life in this country & life in other countries

Geography - Progression of Knowledge and Skills

	Skills/Knowledge	National Curriculum - End of Key Stage 1	Year 1	Year 2
Place Knowledge	Skills	Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country	Naming some key similarities between their local area and a small area of a contrasting non-European country. Naming some key differences between their local area and a small area of a contrasting non-European country. Describing what physical features may occur in a hot place in comparison to a cold place.	Describing and beginning to explain some key similarities between their local area and a small area of a contrasting non-European country. Describing and beginning to explain some key differences between their local area and a small area of a contrasting non-European country.
	Knowledge		To know that life elsewhere in the world is often different to ours. To know that life elsewhere in the world often has similarities to ours.	To know some similarities and differences between their local area and a contrasting non European country.

	Skills/Knowledge	National Curriculum - End of Key Stage 2	LKS2	UKS2
Place Knowledge	Skills	Understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America	Describing and beginning to explain similarities between two regions studied. Describing and beginning to explain differences between two regions studied. Describing how and why humans have responded in different ways to their local environments. Discussing how climates have an impact on trade, land use and	Describing and explaining similarities between two regions studied. Describing and explaining differences between two regions studied. Explaining how and why humans have responded in different ways to their local environments in two contrasting regions. Comparing the climate studied in a region of the UK with that of a region of North and South America and

Geography - Progression of Knowledge and Skills

			<p>settlement. Explaining what measures humans have taken in order to adapt to survive in cold places. Describing and explaining how people who live in a contrasting physical area may have different lives to people in the UK.</p>	<p>discussing how both climates have an impact on trade, land use and settlement. Explaining what measures humans have taken in order to adapt to survive in hot places. Using maps to explore wider global trading routes.</p>
	Knowledge		<p>To know the negative effects of living near a volcano. To know the positive effects of living near a volcano. To know the negative effects an earthquake can have on a community. To know ways in which communities respond to earthquakes</p>	<p>To know some similarities and differences between the UK and a European mountain region. To know why tourists visit mountain regions.</p>

	EYFS - Understanding the World - ELG	Nursery	Reception
Human and Physical Geography	<p>The World ELG – Explore the natural world around them, making observations and drawing pictures of animals and plants. Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class. Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter. People, Cultures and Communities ELG- Describe their immediate environment using knowledge from observations, discussions, stories, non-fiction texts and maps.</p>	<ul style="list-style-type: none"> • Help children to notice and discuss patterns around them, e.g. rubbings from grates, covers, or bricks. • Identify seasonal patterns – focusing on plants and animals. • Begin to understand the effect their behaviour can have on the environment 	<ul style="list-style-type: none"> • Explore their local environment and talk about the changes they see. • Talk about the similarities and differences between them and their friends and well as looking at photos of children and places around the world. • Explain that human activity can influence and impact on the world, meaning that things happen as a result of our actions • Understand the effect of changing seasons on the natural world around them

Geography - Progression of Knowledge and Skills

	Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps		
--	--	--	--

	Skills/Knowledge	National Curriculum - End of Key Stage 1	Year 1	Year 2
Human and Physical Geography	Skills	Identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles	Describing how the weather changes with each season in the UK. Describing the daily weather patterns in their locality. Confidently using the vocabulary 'season' and 'weather'	Locating some hot and cold areas of the world on a world map. Locating the Equator and North and South Poles on a world map. Locating hot and cold areas of the world in relation to the Equator and the North and South poles
	Knowledge		To know the four seasons of the UK. To know that 'weather' refers to the conditions outside at a particular time. To know that different parts of the UK often experience different weather. To know that a weather forecast is when someone tries to predict what the weather will be like in the near future. To know that weather conditions can be measured and recorded.	To know that the Equator is an imaginary line around the middle of the Earth. To know that, because it is the widest part of the Earth, the Equator is much closer to the sun than the North and South poles. To know that the North Pole is the northernmost point of the Earth and the South Pole is the southernmost point of the Earth. To know that different parts of the world experience different weather conditions and that these are often caused by the location of the place
	Skills	Use basic geographical vocabulary to refer to key	Recognising some physical features in their locality.	Describing the key physical features in a local river area using basic

Geography - Progression of Knowledge and Skills

		physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather		geographical vocabulary. Describing the key physical features of a coast line and how it changes over time using subject specific vocabulary
	Knowledge		To know that physical features means any feature of an area that is on the Earth naturally.	To know that coastlines (and other physical features) change over time. To know some key physical features of the UK
	Skills	Use basic geographical vocabulary to refer to key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop	Recognising some human features in their locality	Describing and understanding the differences between a city, town and village. Describing the key human features of a coast line and how it changes over time using subject specific vocabulary.
	Knowledge		To know that human features means any feature of an area that was made or built by humans.	To know that a sea is a body of water that is smaller than an ocean. To know that human features change over time. To know some key human features of the UK.

	Skills/Knowledge	National Curriculum - End of Key Stage 2	LKS2	UKS2
Human and Physical	Skills	Describe and understand key	Mapping and labeling the seven biomes on a world map.	Describing and understanding the key aspects of the six biomes.

Geography - Progression of Knowledge and Skills

Geography		<p>aspects of: Physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle</p>	<p>Understanding some of the causes of climate change. Describing how physical features, such as mountains and rivers are formed, and why volcanoes and earthquakes occur. Describing where volcanoes, earthquakes and mountains are located globally. Describing and explaining how physical features such as rivers, mountains, volcanoes and earthquakes have had an impact upon the surrounding landscape and communities. Describing how humans use water in a variety of ways.</p>	<p>Describing and understanding the key aspects of the six climate zones. Understanding some of the impacts and causes of climate change. Describing and understanding the key aspects and distribution of the vegetation belts in relation to the six biomes, climate and weather. Giving examples of alternative viewpoints and solutions regarding an environmental issue and explaining its links to climate change.</p>
	Knowledge		<p>To know that the water cycle is the processes which move water around our Earth and to be able to name those processes. To know the key features of a river. To know the different types of mountains and volcanoes and how they are formed. To know that an earthquake is the intense shaking of the ground. To know that a biome is a region of the globe sharing a similar climate, landscape, vegetation and wildlife.* To know the world's biomes.* To know that the hottest biomes are found between the Tropics of Cancer and Capricorn. To know that climate zones are areas of the world with similar climates.* To know the world's different climate zones.*</p>	<p>To know vegetation belts are areas of the world that are home to similar plant species.* To name and describe some of the world's vegetation belts. To know why the ocean is important.</p>

Geography - Progression of Knowledge and Skills

			To know that climates can influence the foods able to grow	
	Skills	Describe and understand key aspects of: Human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water	Describing and understanding types of settlement and land use. Explaining why a settlement and community has grown in a particular location. Explaining why different locations have different human features. Explaining why people might prefer to live in an urban or rural place. Describing how humans can impact the environment both positively and negatively, using examples	To know the main types of land use.* To know the different types of settlement.* To know water is used by humans in a variety of ways. To know an urban place is somewhere near a town or city. To know a rural place is somewhere near the countryside. To know that a natural resource is something that people can use which comes from the natural environment. To know the threats to the rainforest both on a local and global scale. To know that fair trading is the process of ensuring workers are paid a fair price, have safe working conditions and are treated with respect and equality. To know the UK grows food locally and imports food from other countries.
	Knowledge		To know the main types of land use.* To know the different types of settlement.* To know water is used by humans in a variety of ways. To know an urban place is somewhere near a town or city. To know a rural place is somewhere near the countryside.	To know the global population has grown significantly since the 1950s. To know which factors are considered before people build settlements. To know migration is the movement of people from one country to another.

Geography - Progression of Knowledge and Skills

			<p>To know that a natural resource is something that people can use which comes from the natural environment.</p> <p>To know the threats to the rainforest both on a local and global scale.</p> <p>To know that fair trading is the process of ensuring workers are paid a fair price, have safe working conditions and are treated with respect and equality.</p> <p>To know the UK grows food locally and imports food from other countries.</p>	<p>To know that natural resources can be used to make energy.</p> <p>To know some positive impacts of humans on the environment.</p> <p>To know some negative impacts of humans on the environment.</p> <p>To know the threats to oceans and corals.</p>
--	--	--	---	--

	EYFS - Understanding the World - ELG	Nursery	Reception
Skills and Fieldwork	<p>The World</p> <p>ELG – Explore the natural world around them, making observations and drawing pictures of animals and plants. Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class. Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter.</p> <p>People, Cultures and Communities</p> <p>ELG- Describe their immediate environment using knowledge from observations, discussions, stories, non-fiction texts and maps.</p> <p>Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps</p>	<ul style="list-style-type: none"> • Observe and identify features in the place they live and the natural world. • Find out about their environment and talk about features they like and dislike. • Use diverse range of props, photos, books to notice & talk about similarities & differences 	<ul style="list-style-type: none"> • Examine change over time. • Pose carefully framed open-ended questions, such as “How can we...?” or “What would happen if...?”.. • Describe some actions which people in their own community do that help to maintain the area they live in. • Draw information from a simple map • Interpret range of sources of geographical information, including maps, globes, photographs

Geography - Progression of Knowledge and Skills

	Skills/Knowledge	National Curriculum - End of Key Stage 1	Year 1	Year 2
Skills and Fieldwork	Skills	Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage	Using an atlas to locate the UK. Using a map of the UK to locate the four countries. Beginning to use an atlas to locate the four capital cities of the UK. Using a world map and globe to locate four of the world's seven continents (Europe, North America, South America and Asia) Using a world map and globe to locate the Atlantic Ocean and Pacific Ocean.	Recognising why maps need a title. Using an atlas to locate the four capital cities of the UK. Using a world map, globe and atlas to locate all the world's seven continents. Using a world map, globe and atlas to locate the world's five oceans.
	Skills	Use simple compass directions (North, South, East and West) and locational and directional language, to describe the location of features and routes on a map	Using directional language to describe the location of objects in the classroom and playground. Using directional language to describe features on a map in relation to other features (real or imaginary). Responding to instructions using directional language to follow routes. Beginning to use the compass points (N, S, E, W) to describe the location of features on a map.	Using locational language and the compass points (N, S, E, W) to describe the location of features on a map. Using locational language and the compass points (N, S, E, W) to describe the route on a map. Using locational language and the compass points (N, S, E, W) to plan a route in the playground or school grounds. Using a map to follow a prepared route.
	Skills	Use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key	Recognising local landmarks on aerial photographs . Recognising basic human features on aerial photographs. Recognising basic physical features on aerial photographs . Drawing freehand maps (of real or	Recognising landmarks of a city studied on aerial photographs and plan perspectives. Recognising human features on aerial photographs and plan perspectives. Recognising physical features on aerial photographs and plan perspectives.

Geography - Progression of Knowledge and Skills

			<p>imaginary places) using simple pictures or symbols.</p> <p>Drawing a simple sketch map of the classroom and playground using simple pictures, colours or symbols to represent features.</p> <p>Adding labels to sketch maps.</p> <p>Using simple picture maps and plans to move around the school.</p>	<p>Drawing a map and using class agreed symbols to make a simple key.</p> <p>Drawing a simple sketch map of the playground or school grounds using symbols to represent human and physical features.</p> <p>Finding a given OS symbol on a map with support.</p> <p>Beginning to draw objects to scale (e.g show the school playground is smaller than the school or school field).</p> <p>Using an aerial photograph to draw a simple sketch map using basic symbols for a key</p>
--	--	--	---	---

Geography - Progression of Knowledge and Skills

	Year 1	Year 2	National curriculum - end of KS1 Pupils should be able to:
Observe	Commenting on the features they see in their school and school grounds on a walk around the respective places.	Discussing the features they see in the area surrounding their school when on a walk. Asking and answering simple questions about human and physical features of the area surrounding their school grounds.	Use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment.
Measure	Asking and answering simple questions about the features of their school and school grounds.	Collecting quantitative data through a small survey of the local area/school to answer an enquiry question.	
Record	Drawing some of the features they notice in their school and school grounds in correct relation to each other on a sketch map.	Classifying the features they notice into human and physical with teacher support. Taking digital photographs of geographical features in the locality. Making digital audio recordings when interviewing someone.	
Present	Using a simple recording technique to express their feelings about a specific place and explaining why they like/dislike some of its features.	Presenting data in simple tally charts or pictograms and commenting on what the data shows. Asking and answering simple questions about data.	

Geography - Progression of Knowledge and Skills

	Skills/Knowledge	National Curriculum - End of Key Stage 2	LKS2	UKS2
Skills and Fieldwork	Skills	Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied	<p>Beginning to use maps at more than one scale.</p> <p>Using atlases, maps, globes, satellite images and beginning to use digital mapping to locate countries studied .</p> <p>Using atlases, maps, globes and beginning to use digital mapping to recognise and describe physical features and human features in countries studied .</p> <p>Using the scale bar on a map to estimate distances.</p> <p>Finding countries and features of countries in an atlas using contents and index.</p> <p>Zooming in and out of a digital map.</p>	<p>Confidently using and understanding maps at more than one scale.</p> <p>Using atlases, maps, globes and digital mapping to locate countries studied.</p> <p>Using atlases, maps, globes and digital mapping to describe and explain physical and human features in countries studied.</p> <p>Identifying, analysing and asking questions about distributions and relationships between features using maps (e.g settlement distribution).</p> <p>Using the scale bar on a map to calculate distances.</p> <p>Recognising an increasing range of Ordnance Survey symbols on maps and locating features using six-figure grid references.</p> <p>Recognising the difference between Ordnance Survey and other maps and when it is most appropriate to use each.</p> <p>Beginning to use thematic maps to recognise and describe human and physical features studied.</p> <p>Using models and maps to talk about contours and slopes.</p> <p>Selecting a map for a specific purpose.</p>
	Skills	Use the eight points of a	Beginning to use the key on an OS map	Confidently using the key on an OS

Geography - Progression of Knowledge and Skills

		<p>compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world</p>	<p>to name and recognise key physical and human features in regions studied. Accurately using 4-figure grid references to locate features on a map in regions studied. Beginning to give instructions using the 8 points of a compass. Using a simple key on their own map to show an example of both physical and human features. Following a route on a map with some accuracy. Saying which directions are N, S, E, W on an OS map. Making and using a simple route on a map. Labelling some features on an aerial photograph and then loca</p>	<p>map to name and recognise key physical and human features in regions studied. Accurately using 4 and 6-figure Grid References to locate features on a map in regions studied. Confidently giving instructions using the 8 points of a compass. Following a short pre-prepared route on an OS map. Identifying the 8 compass points on an OS map. Planning a journey to another part of the world using six figure grid references and the eight points of a compass.</p>
--	--	---	--	---

Geography - Progression of Knowledge and Skills

	Lower key stage 2	Upper key stage 2	National curriculum - end of KS2 Pupils should be able to:
Observe	<p>Mapping land use in a small local area using sketch maps and plans.</p> <p>Making a plan for how they wish to collect data to answer an enquiry based question, with the support of a teacher.</p> <p>Asking and answering one- step and two-step geographical questions.</p> <p>Observing, recording, and naming geographical features in their local environments.</p>	<p>Making sketch maps of areas studied including labels and keys where necessary.</p> <p>Making an independent or collaborative plan of how they wish to collect data to answer an enquiry based question.</p>	<p>Use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.</p>
Measure	<p>Using simple sampling techniques appropriately.</p> <p>Making digital audio recordings for a specific purpose.</p> <p>Designing a questionnaire / interviews to collect quantitative fieldwork data.</p>	<p>Selecting appropriate methods for data collection.</p> <p>Designing interviews/questionnaires to collect qualitative data.</p> <p>Using standard field sampling techniques appropriately.</p>	
Record	<p>Taking digital photos and labeling or captioning them.</p> <p>Making annotated sketches, field drawings and freehand maps to record observations during fieldwork.</p> <p>Drawing simple maps and plans to scale (e.g 1m = 1 square)</p> <p>Using a simplified Likert Scale to record their judgements of environmental quality.</p> <p>Using a questionnaire/interviews to collect qualitative fieldwork data.</p>	<p>Using GIS (Geographical Information Systems) to plot data sets (e.g prevalence of crime in certain areas) onto base maps which can then be analysed.</p> <p>Conducting interviews/questionnaires to collect qualitative data.</p> <p>Interpreting and using real-time/live data.</p>	
Present	<p>Presenting data using plans, freehand sketch maps, annotated drawings, graphs, presentations, writing and digital technologies when communicating geographical information.</p> <p>Suggesting different ways that a locality could be changed and improved.</p> <p>Finding answers to geographical questions through data collection.</p> <p>Analysing and presenting quantitative data in charts and graphs.</p>	<p>Deciding how to present data using plans, freehand sketch maps, annotated drawings, graphs, presentations, writing at length and digital technologies when communicating geographical information.</p> <p>Drawing conclusions about an enquiry using findings from fieldwork to support your reasonings.</p> <p>Evaluating evidence collected and suggesting ways to improve this.</p> <p>Analysing quantitative data in pie charts, line graphs and graphs with two variables.</p>
